

# Innovative Idea Problem Statement

## Objective :

The primary objective of the Idea Submission Round is to encourage participants to think critically, explore unconventional approaches, and propose innovative solutions to real-world problems. This round also serves as a platform for participants to stand out and potentially form teams for the subsequent implementation phase.

The participants can submit their unique ideas regarding innovative problem statements and projects that can be used to solve various modern-day problems. Their ideas can be regarding any domain in robotics. Also, don't forget to specify the possible solutions that can be executed in order to solve them.

## Rules:

1. Participants have to submit a detailed proposal report, including photos, flowcharts, etc.
2. In the report, it should be mentioned how efficient the proposed idea is compared to existing solutions.
3. Teams will be shortlisted according to their submitted proposals. And shortlisted participants have to give an online presentation in front of the jury panel (details will be shared by mail).
4. The best ideas may be given funding from our sponsorship partner to implement their unique ideas.
